Product ID: M06AC - Mediclinics Speedflow Hand Dryer - Bright Chrome

NEW LOW PRICE, WAS £310, NOW JUST £265 - WE IMPORT THESE DIRECT FROM SPAIN

## Speedflow Hand Dryer

FINALLY HIGH SPEED AT A COMPETITIVE PRICE! with a drying time of just 10 - 15 seconds (versus up to 35 seconds for competitive products) combined with a modest price point. Saniflow has eliminated a purchasing managers dilemma of a trying to decide whether to purchase an expensive, large high output hand dryer or going with an inexpensive unit with poor performance. With the new SPEEDFLOW dryer you get both! high speed at competitive price.

The exterior design of the Speedflow makes it ideal not only for use in the most modern surroundings but also, in response to the challenge of functionality for every user, we have created a (wall mounted) dryer which protrudes less than 4 inches from the wall in compliance with ADA requirements.

Not only have we put an emphasis on innovation in its exterior design, we have also patented a new design for the interior scroll so the airflow progressively increases from intake to outlet, which allows the optimum ratio between flow characteristics and the machine's size. Considering the different intensities of use that hand dryers may be subject to, the SPEEDFLOW has been designed so the motor revolutions can be adjusted manually. We can therefore set the dryer to the most suitable airflow and sound level for the place where it is going to be installed. Clients can customize the dryer for use in areas of heavy traffic or in areas where the noise level is an important factor, such as office buildings or hospitals.

The dryer also features an automatic voltage adjustment which means it can be used equally (Universal Voltage) at 110-120 V or 220-240 V.

Our meticulous selection of materials and components means that all this is possible without relinquishing the fundamental safety of the dryer. Both the motor and the resistance have thermal limiters which protect them from overheating.

The dryer also has an automatic fixed target detector which means it turns off automatically after 60 seconds of continuous use.

- \* Bright Chrome
- \* Voltage 100-120, 208, 220-240 V
- \* Frequency 50/60 Hz
- \* Electrical isolation Grounding required
- \* Dimensions 289w x 266.8h x 100d mm
- \* Weight 3,6 Kg
- \* Effective airflow 61-98 m<sup>3</sup>/h 1012-1632 l/min
- \* Nominal airflow 73-118 m<sup>3</sup>/h 1215-3200 l/min
- \* Air velocity 90-180 Km/h
- \* Total power 1.150 W
- \* Motor power 250 W
- \* Heating element power 900 W
- \* Consumption 4.8 A (240 V) 9.5 A (120 V) A
- \* RPM 4.200 - 8200
- \* Air temperature(10 cm distance / 21 °C) 41 - 44 °C
- \* Noise level (at 2 m) 64-74 dB
- \* Protection level IP23
- \* 3 year guarantee
