Product ID: TC0401818UK4 - Milano AutoFaucet Stainless Steel. Hot/Cold Supply

Environmentally Efficient and Cost Effective

The AutoFaucet can reduce water usage by up to 70%, conserving precious resources and reducing cost.

User-friendly performance

Surround Sensor Technology continuously scans the area around the unit and is activated when hands approach from any angle.

- * AutoFaucet scans the detection zone around the spout
- * As the user's hands enter the detection zone the faucet is activated - there is no need to find the activation 'sweet spot'
- * When the user's hands are removed, the water flow stops automatically
- * The AutoFaucet automatically resets for the next user
